**TerraX Minerals makes Presentation to Minister of Industry and Tourism
and Investment at Geosciences Forum**

At the official opening of the Geosciences Forum 2017 on November 14th 2017, Joe Campbell, CEO of TerraX Minerals, and Laura Clinton, Executive Director of Mining Matters, made a presentation to The Honourable Wally Schulman, Minister of Industry Tourism and Investment (also known as Minister for Mining).

Photo taken by Bill Braden courtesy of The NWT and Nunavut Chamber of Mines and TerraX Minerals.

The presentation is a mounted photo of the Grade Four Class at Range Lake School in Yellowknife on the Ranney Hill Geological Interpretive Trail as part of the Mining Matters NWT 2017 Program. TerraX Minerals is the industry sponsor of both the Mining Matters NWT 2017 Program and the Ranney Hill Geological Interpretive Trail which is named after Winslow Ranney, an early prospector in the Yellowknife area.

In addition to being an outdoor classroom, the Ranney Hill Geological Interpretive Trail is shared by tourism and recreational users while it remains active as an exploration area for the Yellowknife City Gold Project.
